

**TEXT MESSAGE COMMUNICATIONS WITH
LOVINGSTON VETERINARY HOSPITAL (LVH)**

I authorize LVH to send text messages to me on my provided cell phone number. I understand that this is not an automated service, excluding the after-hours message, and messaging will be used to send updates on animals or answer simple questions. Text messaging may be subject to charges from a cellphone provider, and I understand that LVH is not responsible for charges incurred on my account. I agree that my conversations with LVH may be retained indefinitely for our records, and if any communications with LVH over text are found to be abusive in nature, then I may be permanently blocked from sending messages to this number.

First and Last Name

Phone Number

Signature

Date

It is important to note that text communication is not always secure. Text messages can be intercepted, and for this reason we do not transmit sensitive information through this method. You should not submit any payment information by text message.
